ON AGRICULTURAL GREENHOUSE GASES

Measuring Greenhouse Gas Balance of Peatland: Lessons from the Tropics and the North

WEBINAR | THURSDAY, 16 NOVEMBER 2023 | 11:30 – 12:30 CET (UTC+1)

A wide-angle photograph of a peatland landscape. In the foreground, there are patches of brown and green reeds and grasses. A body of water, likely a peat bog pool, reflects the sky and the surrounding vegetation. The background shows a flat expanse of peatland leading to a line of dark evergreen trees under a clear blue sky.

Measuring Greenhouse Gas Balance of Peatland: Lessons from the Tropics and the North

WEBINAR + Q&A | THURSDAY, 16 NOV 2023 | 11:30 – 12:30 CET (UTC+1)

Introduction to the Peatland Management Network

Dr. Simon Weldon, Network Co-Lead

Net greenhouse gas balance from several land covers of Indonesian peatland

Presented by: Prof. Dr. Fahmuddin Agus, National Research and Innovation Agency (BRIN), Indonesia

Peatland greenhouse gas observation needs and an example from Norway

Presented by: Dr. Junbin Zhao, NIBIO, Norway
